Subject Index

Adjuvant, in vaccines against vibriosis in rainbow trout, 91.
Aerococcus viridans, from lobsters, 355.
Aeromonas hydrophila:
antigenic differentiation of, 509;
in American eel, 311.
Aeromonas salmonicida:
activation of rainbow trout complement by, 329;
bacterin in salmonids, 293;
in Atlantic cod, 477, 495;
vaccination against, 101.
African lungfish, seminoma in, 169.
American eel, extract of *Ecteinascidia turbinata* in, 311.
Ammonia toxicity, in rainbow trout, 199.
Anguilla rostrata Le Sueur, extract of *Ecteinascidia turbinata* in, 311.
Ankylosing spondylosis in giant perch, 193.
Antigen, detection of from spring viraemia of carp virus, 57.
Antigenic differentiation, of *Aeromonas hydrophila*, 509.
Atlantic cod, atypical *Aeromonas salmonicida* in, 477, 495.
Atlantic salmon, erythrocytes in, 415.
Ayu, vaccination against vibriosis in, 149.

Bacterial kidney disease, immunization against in rainbow trout, 65.
Bass tapeworm, control of with mebendazole, 449.
Biography, Professor Vera A. Musselius, 431.
Book reviews:
The Collection and Preservation of Animal Parasites, by M. H. Pritchard & G. O. W. Kruse, 526;
Fish Pathogens and Environment in European Polyculture, by J. Olah, 525;
Modern Methods of Aquaculture in Japan, by T. & H. Ikenone, 526;
Recent Advances in Aquaculture, by J. F. Muir & R. J. Roberts, 525;
Theory and Management of Tropical Fisheries, ed. by D. Pauly & G. I. Murphy, 327.
Botulism, evaluation of *Clostridium botulinum* following, 391.
Britain, crayfish plague in, 401.

Carassius auratus (L.), pituitary–gonad function in, 433.
Carcinoma, in rainbow trout, 165.
Carp:
antigen detection from SVCV in, 57;
epitheliocystis in, 137;
fibroma in, 283.
Carp fry, aetiology of swimbladder inflammation in, 39.
Channel catfish, epitheliocystis disease in, 407.
Chinook salmon, reactions of to *Loma* sp., 217.
Clostridium botulinum, evaluation of following botulism, 391.
Crayfish plague, in Britain, 401.
Crystallospora (Protozoa, Apicomplexa), taxonomic position of, 317.
Cyprinus carpio L.:
antigen detection from SVCV in, 57;
epitheliocystis in, 137;
fibroma in, 283.

Dab, histology of hepato-splenic organs from, 255.
Dissolved gas supersaturation, in larval striped bass, 15.

Ecteinascidia turbinata, extract of in American eel, 311.
Epitheliocystis:
in carp, 137;
in steelhead trout, 301.
Epitheliocystis disease, in channel catfish, 407.
Erythrocytes:
in Atlantic salmon, 415;
in plaice, 411.
Erythromycin, histology of rainbow trout fed with, 457.
Ethoxyquin, effect of on rainbow trout, 269.
Exophthalmos, in *Sebastes* spp., 467.
Exotoxin, produced by *Vibrio* sp., 117.

Fibroma, in carp, 283.
Fish oil, effect of on rainbow trout, 269.

Gadus morhua L., atypical *Aeromonas salmonicida* in, 477, 495.
Gallstones, in tilapia, 521.
Giant-cell reaction, associated with *Ichthyophonus hoferi* in plaice, 513.
Giant perch, ankylosing spondylosis in, 193.
Goldfish, pituitary–gonad function in, 433.

Hepato-splenic organs, histology of in dab, 255.
Homarus gammarus L., *Aerococcus viridans* from, 355.

Ichthyobodo necator (Henneguy, 1883) from winter flounder, 87.
Ichthyophonus hoferi, giant-cell reaction to in plaice, 513.
Ictalurus punctatus (Rafinesque), epitheliocystis disease in, 407.
Immune phagocytosis, opsonization in by peritoneal cells from salmonid fishes, 29.
Infectious haematopoietic necrosis virus, in sockeye salmon, 421.
Infectious pancreatic necrosis virus:
in rainbow trout, 319;

in striped bass, 505;
serological relationships among five strains of, 127.

Kuruma prawn, proliferative disease syndrome of midgut and ventral nerve in, 183.

Lacistorhynchus tenuis, in striped bass, 397.
Lampetra fluviatilis (L.), reticulo-endothelial system of, 339.
Lamprey, reticulo-endothelial system of, 339.
Lates calcarifer (Bloch), ankylosing spondylosis in, 193.
Limanda limanda L., histology of hepato-splenic organs from, 255.
Lobsters, *Aerococcus viridans* from, 355.
Loma sp., reactions of chinook salmon to, 217.
Lymphosarcoma, in rainbow trout, 73, 83.

Mebendazole, control of bass tapeworm with, 449.
Morone saxatilis (Walbaum):
effects of dissolved gas superaturation on larvae of, 15;
IPN virus in, 505;
Lacistorhynchus tenuis in, 397.

Nephrocalcinosis, in rainbow trout, 379.
North America, first reported outbreak of PKD in, 207.

Oncorhynchus nerka (Walbaum), IHN virus in, 421.
Oncorhynchus tshawytscha (Walbaum), reactions of to *Loma* sp., 217.
Opsonization, in immune phagocytosis by peritoneal cells from salmonid fishes, 29.
Oreochromis mossambicus (Peters), gallstones in, 521.

Pacific salmon, histopathology caused by *Vibrio anguillarum* and *Vibrio ordalii* in, 107.
Penaeus japonicus Bate, proliferative disease syndrome of midgut and ventral nerve in, 183.
Perca fluviatilis L., rhabdovirus pathogenic for, 241.
Perch, rhabdovirus pathogenic for, 241.
Pituitary, exposed to trifluralin, 157.
Pituitary–gonad, function in goldfish, 433.
Plaice:
cellular response of to *Rhipidocotyle johnstonei* (Johnstone, 1905), 3;
erythrocytes in, 411;
giant-cell reaction to *Ichthyophonus hoferi* in, 513.
Ichthyophonus hoferi in, 513.
Plecoglossus altivelis Temminck and Schlegel, vaccination against vibriosis in, 149.
Pleuronectes platessa L.:
cellular response of to *Rhipidocotyle johnstonei* (Johnstone, 1905), 3;
erythrocytes in, 411;
giant-cell reaction to *Ichthyophonus hofer* in, 513.
Ichthyophonus hoferi in, 513.
Proliferative disease syndrome of midgut and ventral nerve in the Kuruma prawn, 183.
Proliferative kidney disease:
experimental transmission of in rainbow trout, 235;
in North America, 207;
in rainbow trout, 323;
of salmonids, 363.
Proteocephalus ambloplitis (Leidy), control of with mebendazole, 449.
Protopterus aethiopicus Heckel, seminoma in, 169.
Pseudopleuronectes americanus (Walbaum), *Ichthyobodo necator* (Henneguy, 1883) from, 87.

Rainbow trout:
activation of complement in, 329;
adjuvant in vaccines against vibriosis in, 91;
ammonia toxicity in, 199;
botulism in, 391;
carcinoma in, 165;
effect of oxidized fish oil, vitamin E and ethoxyquin on, 269;
entry and multiplication of viral haemorrhagic septicaemia virus in, 231;
experimental transmission of proliferative kidney disease in, 235;
histology of, 457;
immunization of against bacterial kidney disease, 65;
IPN virus in, 319;
lymphosarcoma in, 73, 83;
nephrocalcinosis in, 379;
proliferative kidney disease in, 323.
Renibacterium salmoninarum:
bacterin in salmonids, 293;
in salmonid eggs, 173.
Reticulo-endothelial system, of lamprey, 329.
Rhabdovirus, pathogenic for perch, 241.
Rhipidocotyle johnstonei (Johnstone, 1905), cellular response of plaice to, 3.

Salmo gairdneri Richardson:
activation of complement in, 329;
adjuvant in vaccines against vibriosis, 91.
ammonia toxicity in, 199;
botulism in, 391;
carcinoma in, 165;
effect of oxidized fish oil, vitamin E and ethoxyquin on, 269;
entry and multiplication of viral haemorrhagic septicaemia virus in, 231;
epitheliocystis in, 301;
experimental transmission of proliferative kidney disease in, 235;
histology of, 457;
immunization of against bacterial kidney disease, 65;

IPN virus in, 319;
lymphosarcoma in, 73, 83;
nephrocalcinosis in, 379;
proliferative kidney disease in, 323;
Salmonid eggs, *Renibacterium salmoninarum* in, 173.
Salmonids:
bacterins in, 293;
opsonization in immune phagocytosis by peritoneal cells from, 29;
proliferative kidney disease of, 363;
Triaenophorus crassus in, 501.
Salmo salar L., erythrocytes in, 415.
Sample size, tables for, 515.
Sebastes spp., exophthalmos in, 467.
Selenium, influence of on nephrocalcinosis, 379.
Seminoma, in African lungfish, 169.
Sockeye salmon, IHN virus in, 421.
Spring viraemia of carp virus (SVCV), isolation techniques for antigen detection of, 57.
Steelhead trout, epitheliocystis in, 301.
Striped bass:
dissolved gas supersaturation on larvae of, 15;
IPN virus in, 505;
Lacistorhynchus tenuis in, 397.
Swimbladder inflammation, protozoan aetiology of in carp fry, 39.

Tilapia, gallstones in, 521.
Triaenophorus crassus, in salmonids, 501.
